

Custom reporting

Purchase to pay analytics which drive informed decision-making and make tracking metrics easy.

The problem.

Finance teams are under growing pressure to demonstrate payment performance to regulators and the board and improve processes for higher productivity. But data is spread across systems and often restricted, reports are too manual, taking time to complete. And finance teams are being asked to do more with less.

The solution.

Custom reporting makes reports simpler and faster, allowing you to gain oversight of P2P risk and performance across the organisation.

Create: Use our pre-built reports or configure your own with our AI report generator. Simply let it know what you would like to measure.

Share: Turn data into information and share dashboards or reports easily with your team. Our reports include annual KPIs, risky transaction rates, fraud, payment practice, payments compliance notices, days to pay, performance, and more.

Act: Comply easily with payment practice regulations. Make data-driven decisions to enable strategic process improvement, improve productivity.

SPEND LESS TIME CREATING REPORTS AND MORE TIME MAKING COST EFFICIENCIES.
