

# Managed AP consultancy

Expert risk management consultancy to help you optimise workload, save time, and achieve maximum results.

## The problem.

With increased workloads, fewer staff, and changing financial processes, Accounts Payable teams can lack the resources to manage risks effectively. When time and focus is at a premium, the balance between optimum efficiency and diligent risk management can shift with your priorities, and more resource is put into day-to-day tasks, leaving organisations at risk.

## The solution.

FISCAL's value consultants act as an extension of your team, providing expert support in managing your transaction and supplier risks. We proactively handle the forensic analysis, using FISCAL software to help you mitigate risk while ensuring compliance.

As result, you can optimise your resources while boosting your risk mitigation strategy with our skills and time capacity.

Select which service or combination of services that suit your needs.

*"We are very impressed with FISCAL's value consultancy team. In addition to keeping us well informed throughout the entire process, our dedicated consultant ensured that good supplier relationships were maintained and crucially, our bank account was promptly credited with £1.85m".*

**Simon Cruickshank. Chief Accountant,**  
**King's College University London**
